

# Encounter with plants

Webinar online course in 3 sessions with Jean-Michel Florin

A pilot project on preparation plants

## I The first impression of a plant and its environment

### Exercise session I

#### 1. First impression

- Find the chosen plant in its natural environment
- Be aware of your very first impression without knowing anything about the plant

#### 2. The plant, a mirror of its environment

- Describe the location / site of the plant precisely (soil conditions, exposure, climate, companion plants). Therefor use the elementary qualities: rich/lean soil, mineral/moist, atmosphere: dry/moist, hot/cold, light/dark, etc.)
- Make a color sketch (pastel pencils) of the plant **in the location** and/or an accurate photo

**The exercises will be discussed in the next session. Please send your completed exercises in advance to Jean-Michel Florin: [jean-michel.florin@goetheanum.ch](mailto:jean-michel.florin@goetheanum.ch)**
