

## International Biodynamic Viticulture Meeting

### Invitation & Save the date

5<sup>th</sup> and 6<sup>th</sup> February 2019 at Goetheanum Dornach, Schweiz

In 2018, the working group "International Biodynamic Viticulture Group" was founded at the Agriculture Conference. The idea of this group is to have an international organ that works on a deeper understanding of different aspects related to biodynamic viticulture through Anthroposophy. We would like to meet in a pre-seminar on Tuesday afternoon 5<sup>th</sup> and Wednesday morning 6<sup>th</sup> February 2019 before the next Agriculture Conference at the Goetheanum.

The focus will be on the main topic "**The future of the grapevine as part of the whole organism**", which is subdivided into two blocks and topics:

<b>Tuesday, 5<sup>th</sup> February 2019</b> 16 – 18am  19.30 – 21am	<b>How to bring animal quality to the vineyard?</b> Impulse lectures by Klaus Wais and Georg Meissner Working groups
<b>Wednesday, 6<sup>th</sup> February 2019</b> 8.30 – 9.30am  10 – 11am	<b>How to develop the vitality of the grapevine?</b> Impulse lectures by Jean-Michel Florin and Vincent Masson Working groups

We hope you can participate and are looking forward to your registration via mail:

In addition, there will be the opportunity to exchange ideas on the „**Economic reality of biodynamic quality wine**“ in the meeting on Friday the 8<sup>th</sup> February 2019 15.15am until 16.30am during the Agriculture Conference.

We look forward to seeing you in February in Dornach
