16.30	Workshops		
18.00	Dégustation <i>Jean-Marie Stoeckel</i> Meilleur sommelier de France		
		Die Workshops werden auf Deutsch, Französisch und Englisch angeboten Les ateliers seront offerts en français, anglais et allemand The workshops will be held in French, English and German	

The vine is a plant that has accompanied mankind since remote times. Nowadays the vine is endangered. Many diseases and the loss of the diversity of varieties present urgent problems. Furthermore, soil compaction and biodiversity loss in vineyard landscapes pose additional challenges. In their quest for solutions, ever more wine growers become interested in biodynamic wine growing. In this context, this conference will address the following questions: How to understand the foundations of biodynamic wine growing? What is the nature of the vine? How to best cultivate, care for and prune the vine? What landscape components can promote the health of the vine? How can we understand the substances used in the production of wine? What is the role of the wine grower nowadays?

To enhance the exchange, this conference will take place in Colmar – the historical capital of the Alsatian wine growing region. To get in touch with the work of Rudolf Steiner – an Austrian philosopher and scientist who founded biodynamic agriculture – we will spend half a day in Dornach (near Basel/Switzerland) and visit the Goetheanum and its garden park – the world wide centre of Steiner initiatives (biodynamic agriculture, Waldorf pedagogy, anthroposophic medicine etc.). This visit shall bring us closer to the roots of biodynamic agriculture.

The substantive work with questions concerning the vine will be complemented by comforting and festive moments such as tastings, dinners and performances.

The conference is organised by the Section for Agriculture and Demeter-International e.V. in cooperation with the Mouvement d'Agriculture Bio-Dynamique and Demeter-France.

Registration

You can register on-line on the website of the Goetheanum, Dornach/Switzerland (or via the phone if you have difficulties to follow the procedures on the web).

The registration form and additional information, including accommodation, is available on:

<http://www.goetheanum.org/5043.html>

Booking closes: Wednesday, 31 October 2012 (limited to 230 participants)
