The Biodynamic Training Centre at Rudolf Steiner School, Nairobi, Kenya,
presents the Foundation Course for Biodynamic Agriculture

We invite farmers and people professionally working in agriculture to our biodynamic workshop at Steiner School, Nairobi, Kenya. This training course offers you a unique opportunity to participate in a competency based programme for biodynamic agriculture. The workshop uses a variety of media; lectures, group activities and creative hands-on-experience to develop knowledge of biodynamic practice. By attending this training course you will acquire a thorough understanding of biodynamic agriculture. You will also develop the skills and insight necessary to work with the biodynamic system in your own individual situation.

Biodynamic agriculture encourages you to appreciate the earth as a coherent, living organism, to be sensitive to it and work with its cycles and needs. Biodynamics combines the best traditional farming methods with up-to-date management to create a modern system that makes ecological sense.

Join us as we experience the biodynamic preparations both in theory and hands-on:

Thursday, April, 11, 9:00 AM to 4:00 PM

Friday, April, 12, 9:00 AM to 4:00 PM

The trainers are Anne and Rolf Bucher who acquired the methods of organic and biodynamic agriculture in the late 1970s and have been practising them ever since. As farm managers they have cultivated medicinal plants for WALA/Dr.Hauschka Cosmetics (Germany) for more than 30 years. Anne and Rolf have made the biodynamic preparations for more than 40 years and are prep makers for farmers in southern Germany. In close cooperation with GLS Zukunftsstiftung Entwicklung (Germany) and Demeter International Anne and Rolf have given public talks, conducted biodynamic workshops in many countries and have been working in rural development and education since 2011.
